

## Almost Like You Died

We saw  
Your strange and distant lands  
Your statues and your guns  
Parades and marching bands  
So proud  
Of everything you'd done  
The rules that you had changed  
The battles you had won  
Are all forgotten

You tried  
You failed  
You failed  
But at least you tried  
Now, dancing on your grave  
It's almost like you died

Your faith  
Just crumbled as you fell  
You promised paradise  
And built the perfect hell  
Your dream  
That went so very wrong  
It still appears to me  
As beautiful and strong  
As you imagined

You tried  
You failed  
You failed  
But at least you tried  
Now, dancing on your grave  
It's almost like you died
