

Everything I Never Did

And so
It seems
I've spent my time just getting rid of dreams
Of how
To turn my life around and feel the joy
I should be feeling now

And everything I never did
I remember anyway
And everything I've yet to do
I still recall like it was yesterday

It's called
Success
To let never them find out I'm a mess
Whose fate
Is peddling my imaginary goods
To people that I hate

And everything I never did
I remember anyway
And everything I've yet to do
I still recall like it was yesterday

Hesitate
Elaborate
Break your soul apart
Much too late
To contemplate
A new and better start

And everything I never did
I remember anyway
And everything I've yet to do
I still recall like it was yesterday
