

## **Fail Before You Try**

Like a joke you've heard one thousand times before  
It's just not funny anymore  
All doors are open if you only find the way  
Well you know that's what they say

Stupid people think  
We can all learn to fly  
And fail  
Before they try  
Fail  
Before they try

They're everywhere – you get their message loud and clear  
They fill you up with hope and fear  
You hope that you too can do anything at all  
But still you fear that you may fall

You've got yourself to blame  
And there is no reason why  
You fail  
Before you try  
Fail  
Before you try

Stupid people think  
We can all learn to fly  
And fail  
Before they try  
Fail  
Before they try
