

## Ourselves for Free

I'm not telling you to go  
I'm only saying you can't stay  
And if I tell you what I know  
You won't believe me anyway

The time has come for us to see  
No matter what we try to be  
We cannot have ourselves for free

They say that snow is on the way  
But spring will come again one day  
I know you feel a little strange  
There is no right time for a change

So what is wrong with you and me?  
No matter what we try to be  
We just can't have ourselves for free

I'm not telling you to go  
I'm only saying you can't stay  
And if I tell you what I know  
You won't believe me anyway
